

60cm Electric Built-in Oven, TFT display, total steam Modern Series

F6011MODVTX

The Bertazzoni Modern Series 60cm built-in electric oven has a 76 litre capacity best-in-class cavity. With 11 functions it is ideal for mid-to low- temperature cooking, such as baking or recipes that require slow cooking, like casseroles. The non-convection mode is excellent for baking cakes, while the fan-assisted mode ensures even heat distribution on all five levels for roasting and baking with no flavour crossover. The oven is easily managed with full touch controls in a black glass control panel with a clear TFT display, which offers remarkable flexibility when choosing cooking modes. It also makes managing the food probe and Bertazzoni Assistant simple. The soft open-and-close door is safe and easy to use, fitted with a smart glass-finish handle. The door is quadruple-glazed for safety and energy efficiency. Available in stainless steel, Carbonio, zinc and copper.

Specifications

Features

Oven cavity

Size	60 cm
Oven fuel	electric
Oven type	Total Steam / electric multifunction
Oven grill type	electric
