

60cm Electric Built-in Oven LCD display, steam assist Professional Series

F6011PROVLX

This Bertazzoni Professional Series 60cm built-in electric oven with steam assist offers a best-in-class cavity capacity of 76 litres. With 11 functions it is ideal for mid-to low- temperature cooking, such as baking or recipes that require slow cooking, like casseroles. The non-convection mode is excellent for baking cakes, while the fan-assisted mode ensures even heat distribution on all five levels for roasting and baking with no flavour crossover. The infrared grill gives powerful searing and grilling over a large surface area. The oven is easy to control and monitor with metal or metal titanium knobs and a clear LCD display. The soft open-and-close door with metal or metal titanium handle is easy to use and the cool touch glass is triple-glazed for safety and efficiency. The Steam Assist oven offers three different steam intensity levels. Combined with traditional cooking functions, this delivers more intense flavours along with the ability to bake, roast and broil. Available in stainless steel and black.

Specifications

Features

Oven cavity

Size	60 cm
